Each year we work hard to bring on-trend, yet classic product to market. It's always a mix in style of traditional - meets - modern with new accessories, lighting, artwork and accent furniture. The shapes, silhouettes, materials, pattern and color all layer to tell a story. How we merchandise and pull together the look in the showrooms and photography is an example of our blending the newest introductions with best sellers through color, finish and theme. You can walk through the showrooms to see how color and pattern layer together. The catalog is laid out the same way as we like to tell the same story.

One of our best selling collections is our Marais shelves. We have added more sizes and finishes so that you can personalize it to exactly what you may need. The look is modern, functional and goes so many places.

We continue to have great success with our licensing partners Madcap Cottage, Scalamandre and Williamsburg. Each offer iconic patterns, color and stories through their individual points of view of history, travel and whimsy. We love working with each of them so that we can offer the patterns you love such as the zebras and colorful florals on lighting and accents.

Discover all that we offer by shopping online for the most up to date assortment, and in tandem with our printed catalog. I hope that you find many exciting designs and products for your stores and clients projects.

We thank you for your business. As always, Happy Decorating!

Classic Mix

We love a layered room of antiques and new discoveries. That punch of color in artwork, to the unexpected accent table in malachite, each interior comes to life with a mix of color, pattern and patina.

MADCAP COTTAGE

John Loecke and Jason Oliver Nixon are the duo behind the North Carolina based firm Madcap Cottage. Known for their whimsical use of color and pattern, the gents—along with their posse of dogs, scour the world for eclectic finds that capture their unique and gimlet-eyed viewpoint. Imagine a British country house that pairs stunning antiques and a spirited dash of chinoiserie chic with a dash of Morocco-meets-India elan.

"If you are looking for beige and boring, bark up someone else's tree," quips Jason. "We live and breathe 'whimsy', but our projects are bespoke, sophisticated, and perfectly catered to our clients' sensibility and 'brand'. We are spectacularly livable. John and I have dogs, nieces and nephews—we get it."

Madcap Cottage has been published in InStyle, People, House Beautiful, Country Living, House & Garden UK, Architectural Digest Russia, the New York Times, the Wall Street Journal and New York magazine.

MADCAP COTTAGE
Children are wonderful,
but dogs
don't have to go to college.
If you want
to be neutral,
move to Switzerland.
Be bold,
dream in pattern.
Tell stories.
The less you talk,
the smarter you seem.
You only live once,
so don't settle
for boring and expected.

Scalamandré® MAISON BY PORT 68™

The collection celebrates the classic, iconic patterns of Americas legendary textile House. As the industry’s standard bearer of excellence since 1929, Scalamandré has been called upon by some of the most extraordinary properties from the White House, New York’s Metropolitan Opera House and the Dorchester Hotel in London for decoration to name a few commissions. Working with the Scalamandré design team, we perused their curated archives for the most iconic designs for inspiration from their collection. We love designing product that has a lineage which is classic and modern.

Rich burnished metals, colorful porcelains and aged patina embellishments layer the timeless collection in lighting, accent upholstery and décor. A mélange of patterns range from Baldwin Bamboo, Chinoise Exotique, Muir Woods, Siberian Tiger, Arcadia resist, Ming Fret, Balinese Peacock, Pondicherry, Jamboree and the chic and signature Scalamandré Zebra.

Making History Now:
The Colonial Williamsburg Foundation

Colonial Williamsburg is the only place that takes you back in time to the dawn of America. It's the place where the idea of our country is being born; the place where the ideals we stand for as Americans are being defined. It is the 18th century "live," with over 400 structures that stood there, the trades and establishments that thrived there, the residents who lived there, and the undercurrent of revolution that led to who and where we are.

The colorful blue adaptation of a classic Indian chintz resembles linen printed fabric with exotic floral and fauna. Catherine of Braganza, Queen of King Charles II of England, brought Portuguese trade routes to the British East India Company, spurring fascination with such Asian goods and fabrics.

As part of the Williamsburg collection, Braganza is a classic and colorful pattern that is produced on lighting and accessories.

Design Note:

A parterre was a popular formal garden in England and France in the late seventeenth century. The geometric clipped hedge patterns associated with this type of garden often incorporated avenues and stylized tree plantations; some designs even featured elaborate sculptures, fountains and terraces.

The Garden Parterre prints are illustrations from Colonial Williamsburg’s rare book collection. We have colored the printed images in a meadow green for today’s “Trends Meets Tradition” Williamsburg collection.

Evelyn is the graphic woven design that we interpreted from an 1730 silver bread basket made by London silversmith William Kidney. The original silver basket resides in the Colonial Williamsburg museum.

As part of the Williamsburg collection for Port 68, Evelyn celebrates the graphic woven wicker pattern in blue on cream crackled hexagon shaped porcelain silhouettes. We have this pattern on vases and the modern lamp.

Garden Partierre I Artwork

ACJS-312-24
20”h x 26”w x 2.5”d

Design Note:

A parterre was a popular formal garden in England and France in the late seventeenth century. The geometric clipped hedge patterns associated with this type of garden often incorporated avenues and stylized tree plantations; some designs even featured elaborate sculptures, fountains and terraces.

The Garden Parterre prints are illustrations from Colonial Williamsburg’s rare book collection. We have colored the printed images in a meadow green for today’s “Trends Meets Tradition” Williamsburg collection.

Framed under a lucite shadow box, the giclee prints are mounted to an interior board that is upholstered in an off white cotton/linen fabric.
